

## Get **Trained by the experts**

**TEAM-1 Academy** is North America's leader in Confined Space/High Angle/Rescue from Heights & Safety Training for the last 20 years, providing our services to *Fortune 500 companies, Industry, Construction, Health Care, Utilities, Fire Services, Police, EMS, Military, Government and numerous others.*

We only use highly skilled, current professional emergency responders with years of experience. **Real Time, Real People, Real Training!**

**Our training services and instructors are second to none!** Many of our instructors have been with us 15+ years. We are the original Technical Rescue & Safety training company. **Get trained correctly, the first time and every time, by experienced instructors!**

We offer the best North American training, using actual props such as Railcars & Tankers, Chlorine Cylinders, Confined Space Systems and a 5 storey Fire Fighting structure. Our training will provide you with techniques to confidently handle safety & emergency situations whether it be Road, In-Plant, Rail or Marine to ensure your health protection during an incident. Legislative and local regulations are also reviewed.

**TEAM-1 Academy's** courses emphasize hands-on (practical) training to enhance participants' understanding and help them adapt to emergency situations. **We provide Rescue and Safety training at your site or ours.**

**We have been customizing our training sessions for our customers for the last 15 years. All courses are tailored to suit your training needs, thus ensuring content is relative to location, staff and local regulations.**

**SAFETY THROUGH ACTION ... SUCCESS THROUGH COMMITMENT!**
