

CONFINED SPACE RESCUE TRAINING

Make sure you can execute YOUR Rescue Plans

It is a fact that Confined Space Rescuers have had more fatal injuries than the actual entrants. This course will cover the aspects required to conduct Confined Space Rescues while following the new O.Reg. 632/05 Confined Space legislative requirements. **TEAM-1** instruction in the area of Confined Space Rescue is second to none and is recognized as the industry leader. This course is 80% practical.
