**On-Site Training. It's The Law!** [Click here](#)

All TEAM-1 Academy Inc. Courses comply with and exceed current OHS and MOL guidelines for competency.

The Law states that a competent worker must have **knowledge** of the correct procedures in their own working environment and be able to organize their **work**. The worker must be able to apply the **legislation** to their own workplace and must be aware of any **hazards** while in the **workplace**.

On-site instruction means a faster return on your training investment. No two operations are alike. On-site, skill-based instruction is the very core of training. At TEAM-1 Academy each client's requirements are assessed and a custom training program is made to meet your needs. Your employees will be trained where they work and on the equipment they use in their day-to-day operations. Upon completion of training, your employees will be able to immediately apply what they have learned.

### **Meaningful Training is Site-specific**

On-site training is relevant to each specific industry and deals head-on with the problems workers struggle with on a daily basis.

TEAM-1 Academy is strategically located to serve you.
