RESPIRATOR FIT TESTING SERVICE

It's More Than a Fit Test. It's Someone's Life.

All employees that wear respirators shall be (no option) fit tested annually. This includes EMS providers wearing HEPA particulate masks as well as firefighters using self-contained breathing apparatus, hazardous material teams, and industry/manufacturing plants.

www.team1academy.com

TEAM-1 Academy has been providing fit testing services for over a decade. We only use the most accurate fit testing equipment. (QUANTITATIVE) We conveniently come to your office and provide this valuable service.

If you wear a respirator you need to be Fit Tested. Did You Know ?

Fit Testing of employees shall be performed:

- Prior to using a respirator
- Each time a different face piece is used
- At least **annually** thereafter
- Whenever there is a sudden gain or weight loss
- If there is permanent injury or disfigurement to the facial area
